PROFESSIONAL SUMMARY

Data Product Manager – Strategic Data Asset Management and Product specialist with 8+ years of experience governing end-to-end data lifecycles, data domain standardization, and quality framework implementation across Finance, Audit, Media, and Technology ecosystems. Expert in designing structured ingestion schemas, defining data quality SLAs/KPIs, and utilizing SQL, Python, and Snowflake to enhance data asset usability and downstream analytics readiness.

SKILLS

Data Asset Management, Data Product Management, Data Lifecycle Management, Credit & Non-Credit Data Domains, Data Quality Standards (SLAs & KPIs), Schema Design & Standardization, Data Usability & Accessibility, Data Governance, SQL, Python, Snowflake, PostgreSQL, Ingestion & Storage Architecture, Cross-Functional Collaboration, Impact Assessment, Data Discovery & Profiling, Data Retirement & Enhancement, Downstream Product Analytics

EXPERIENCE

Titans Space Industries AI/ML Engineer [Remote]	Orlando, FL Feb 2026 – Jul 2026
- Designed standardized ingestion schemas and validation pipelines in Python for complex sensor data domains, reducing telemetry data onboarding time by 48% - Established automated quality monitoring routines and data completeness KPIs for autonomous systems, lifting asset reliability across downstream models by 33%	
Resilience Inc Google Analytics Associate [Internship]	Tampa, FL Aug 2025 – Sep 2025
Managed the end-to-end lifecycle and schema mapping for multi-source campaign data assets, improving cross-platform attribution data consistency by 41%	
Ernst and Young LLP Senior Consultant	Karnataka, India May 2021 – Aug 2024
- Governed life sciences client data domains by implementing strict audit validation rules and Power BI reporting schemas, cutting compliance reporting turnaround by 40% - Collaborated with global technology teams to define data quality SLAs and remediate legacy data asset gaps, boosting data completeness and integrity by 38%	
Opteamix LLC Senior Software Engineer	Karnataka, India Aug 2020 – May 2021
Built and maintained scalable ETL-style data pipelines in SQL, Python for insurance claims systems, establishing data quality and reliability practices that improved accuracy by 22%	
Deluxe Services Pvt Ltd Senior Software Engineer	Karnataka, India Sep 2018 – Aug 2020
Validated multi-source streaming performance logs and media asset delivery pipelines in SQL and Python, increasing distribution data consistency by 27%	

EDUCATION

Clark University GPA: 3.93 Masters in Data Analytics	Worcester, MA Aug 2024 – Dec 2025
--	---

CERTIFICATIONS

AWS Cloud Practitioner (2025)	Advanced Data Science (2024)	Databricks Lakebase & BI (2026)
-------------------------------	------------------------------	---------------------------------

PROJECTS (2026)

- Enterprise Credit & Financial Data Domain Management Platform | SQL, Snowflake, Python, Great Expectations**
Architected a centralized data asset repository and automated quality-checking framework across 15+ credit and non-credit data domains, reducing data onboarding latency by 60% and lifting schema consistency to 99%
- Automated Data Quality SLA & KPI Monitoring Framework | Python, Apache Airflow, PostgreSQL, Streamlit**
Engineered an end-to-end observability engine tracking data freshness, completeness, and schema drift across downstream analytics pipelines, decreasing data issue identification time by 55%
